

Alumni CEU Opportunities in Mexico

We are currently developing a 16 hour, weekend CEU course on ***Cultural Narratives in Supervision*** to take place in July at the Instituto Allende during our summer program in San Miguel de Allende. It will be targeted at alumni interested in an immersive experience and conversation on culture with other therapists from both sides of the border. Information on registration will be forthcoming in February but general information about our program in Mexico can be found on our [website](#).
